FROM EVERY CORNER OF THE WORLD**

EXCEL CURRICULA OF IMBA

FLEXIBILITY

Through the University System of Taiwan (UST), students are free to design their course selection based on their interest. Prestigious member universities of UST offered numerous courses suitable for IMBA program.

PRACTICE-BASED LEARNING

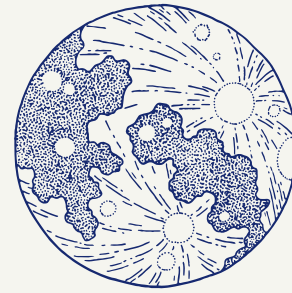

Taking approach based on the actual practice in business & management field, our program encourage the students to always be relevant with any development in the field. Actual practitioners as well as company visitations are one of so many ways implemented for our IMBA program.

MASTER THESIS

One of the culminating point for students to show their academic excellence during their study. Each students able to express their academic interest, guided by highly qualified advisor in the related field. Student can choose to approach any professors, not only in our program, but also open to any faculty in the college of Technology Management.

WHAT MAKES US A UNIQUE MBA PROGRAM?

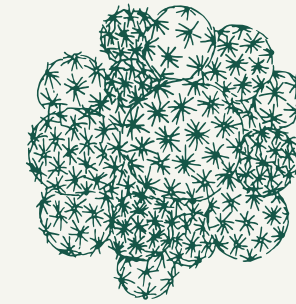

DIVERSITY

We are proud to gather students from 63 countries and six continents. By hanging out with peers from diverse backgrounds after class, IMBA students experience cultural learning in a global setting that promotes creativity with differing viewpoints and can collaborate to innovate better solutions with an open mindset.

CLOSE INDUSTRY CONNECTION

This strategic location makes it a perfect place to learn about the technology sector. As part of the classes, they get involved in projects in cooperation with the local companies, such as ASML, BenQ, Lite-On, PwC, and Zyxel, etc. The variety of companies nearby also create opportunities when it comes to finding internships.

TECHNOLOGY FOCUS

Benefiting from National Tsing Hua University's strength in science and engineering, as part of the College of Technology Management, an interdisciplinary business school, IMBA integrates those strengths into the curriculums. IMBA students are encouraged to study and learn from other departments by taking some of the courses as the electives.
