MOE “Regulations Regarding International Students Undertaking Studies in Taiwan”

Article 1

These Regulations are formulated in accordance with the provisions of Article 25, Paragraph 3 of the University Act, Article 32, Paragraph 1 of the Junior College Act, Article 41, Paragraph 1 of the Senior High School Education Act, and Article 30, Paragraph 1 of the Primary and Junior High School Act.

Article 2

A person of foreign nationality who has never held Republic of China (“R.O.C.”) nationality and who meets the following criteria is permitted to apply for admission to an educational institution, in accordance with the provisions of these Regulations:

1. The person has never undertaken studies in Taiwan as an overseas compatriot student.
2. The person has not been given a placement in the current academic year by the University Entrance Committee for Overseas Compatriot Students in accordance with the Regulations Regarding Study and Counseling Assistance for Overseas Compatriot Students in Taiwan.

A person of foreign nationality who meets the following criteria and who in the immediate past has resided overseas continuously for at least six years is also permitted to apply for admission to an educational institution, in accordance with these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

1. A person who at the time of their application also holds dual R.O.C. nationality shall have never had household registration in Taiwan.
2. A person who before the time of their application also held dual R.O.C. nationality but no longer does at the time of their application shall have renounced their R.O.C. nationality with the approval of the Ministry of the Interior on a date at least eight full years before making their application.
3. A person referred to in either of the preceding two subparagraphs shall also meet the criteria set out in the provisions of Subparagraph 1 and Subparagraph 2 of the previous paragraph.

A foreign national who has been selected by a foreign government, organization, or educational institution to study in Taiwan in accordance with an education cooperation agreement, and who has never had household registration in Taiwan may be given exemption from the restrictions set out in the two preceding paragraphs if the competent authority gives approval.

The periods of six years and eight years referred to in Paragraph 2 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The term “overseas” used in Paragraph 2 refers to countries or regions other than the Mainland Area, Hong Kong, and Macau; the term “reside overseas continuously” means that an international student has stayed in Taiwan for no more than a total of 120 days in each calendar year. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days. However, time that a person has spent in Taiwan is not subject to this restriction and it is not counted when calculating how long they were in Taiwan in a particular year if the person has documentary proof that they:

1. attended an overseas youth training course organized by the Overseas Compatriot Affairs Council or a technical professional training program accredited by the Ministry of Education;
2. spent a total period of less than two years undertaking Mandarin language classes at a Mandarin language center at a university or tertiary college which has Ministry of Education approval to recruit students overseas;
3. spent a total period of less than two years in Taiwan as an exchange student; or
4. spent a total period of less than two years undertaking an internship that they came to Taiwan to undertake with the approval of the designated central competent authority.

A person who held both foreign nationality and R.O.C. nationality and applied for annulment

of their R.O.C. nationality before the date of effect of the February 1, 2011 amendment to these Regulations may apply for admission as an international student in accordance with the provisions in place before the amendment and is not subject to the restrictions set out in Paragraph 2.

In these Regulations a person to whom any of the circumstances set out in Article 2 of the Nationality Act apply is deemed to have Republic of China (“R.O.C.”) nationality.

Article 3

An applicant of foreign nationality, who is eligible for permanent residence in Hong Kong or Macao, who has never had household registration in Taiwan, and who at the time of their application has resided in Hong Kong, Macao, or elsewhere overseas continuously for at least six years may apply for admission in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period of continuous residence referred to in the previous paragraph.

A person who was formerly from the Mainland Area and who has foreign nationality and has never had household registration in Taiwan, and who at the time of their application has resided overseas continuously for at least six years may apply for admission to an educational institution, in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period that they resided continuously overseas referred to in the previous paragraph.

The periods of six years and eight years referred to in Paragraph 1 and in Paragraph 3 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The definition of “overseas” given in Paragraph 5 of the previous article also applies, *mutatis mutandis*, to Paragraph 1 to Paragraph 4.

Article 4

An international student applying to study at an educational institution in Taiwan in accordance with the provisions of the two previous articles is limited to only applying once. If a student wants to continue studying in Taiwan, their application shall be handled in the same manner as the admission procedures for domestic students.

An international student in any of the following circumstances, who after applying to study in Taiwan in accordance with the preceding paragraph, is applying to continue studying in Taiwan, or is once again applying to study in Taiwan, is not subject to the restriction set out in the preceding paragraph.

1. If the international student is applying for admission to a master’s degree or higher-level program after completing the course of study at the educational institution to which they originally applied. The university to which the student is now applying shall handle the application in accordance with its regulations;
2. If the international student applied to come to Taiwan to undertake a bachelor's degree or lower-level program in Taiwan and after coming to Taiwan stayed for less than one year for some reason then discontinued their studies or forfeited their student status, that student may

lodge another application to come to Taiwan to study, but only one such further application is permitted.

3. If the international student meets the requirements set out in the provisions of Article 2, Paragraph 1 and they are applying for admission to an associate degree program or a program below that level.

4. If the international student meets the requirements set out in the provisions of Article 2, Paragraph 1 and they are applying for admission to a bachelor's degree program other than one in a university department of medicine, dentistry, or Chinese medicine; only one such further application is permitted.

If an educational institution in Taiwan where an international student was studying considers that their conduct or academic performance was unsatisfactory, or if the student seriously violated any ordinances or the regulations of the educational institution and the circumstances were serious and as a result, in accordance with the provisions of its regulations governing student awards and penalties had to discontinue their studies or forfeited their status as a registered student, the student is not permitted to re-apply to study in Taiwan on the basis of the provisions of the previous two paragraphs.

Article 5

In principle, the actual number of places available for international students to be admitted to universities and two-year programs at junior colleges (hereunder referred to as "universities and tertiary colleges") is limited to an additional ten percent above the admission quota that was approved for the institution for the previous academic year by the Ministry of Education, and that number shall be incorporated into the total admission quota for that academic year and reported to the Ministry of Education for approval. A university or junior college applying to recruit more than an additional ten percent shall submit a report of the planned increment (including associated quality control strategy and supportive measures) to the Ministry of Education for approval. Degree programs offered by collaborating domestic and foreign universities that have been approved on a case-by-case basis by the Ministry of Education are not subject to this restriction.

The actual number of international students that may be admitted to a five-year program at a junior college, or to a senior secondary school, junior high school, or an elementary school is limited to no more than an additional ten percent above the admission quota that was approved for the institution for the previous academic year by the competent authority, and the number of international students shall be incorporated into the total number of students admitted for that academic year and be reported to the competent authority for approval. Universities and tertiary colleges may augment the number of places at their institution available to international students by the number of places that were available to local students within the admission quota that was approved for the institution for the previous academic year and shall first report such an increase to the Ministry of Education for approval.

The admission quotas referred to in Paragraph 1 and Paragraph 2 do not include international students who are not officially registered as a current student.

Article 6

A university or tertiary college that recruits and admits international students into any year of its programs shall draw up its own related admission regulations to be made public and submit them to the Ministry of Education for approval. The contents shall include its recruitment method(s), admission eligibility review procedure, teaching language(s) used by departments (programs), student language proficiency criteria, proof of financial resources criteria, and other related matters.

After the admission regulations referred to in the preceding paragraph have been approved by the Ministry of Education, each university or tertiary college shall formulate its own admission guidelines for international students that give details of its recruitment method(s), admission eligibility review procedure, the departments (programs) that may admit international students, teaching language(s) used by each of those departments (programs),

student language proficiency criteria, the maximum number of years in which each program must be completed, admission quotas, eligibility criteria to apply for admission, proof of financial resources criteria, tuition and miscellaneous fee collection and refund criteria, information about scholarships and/or grants provided by the educational institution, and other related matters.

Universities and tertiary colleges that handle the recruitment of international students are not permitted to commission any external institution, legal person, group, or individual to handle related matters except publicity and promotion, and to assist students coming to Taiwan undertake the necessary related procedures. In due course each university and tertiary college shall also verify whether any commissioned party has collected any unreasonable fees from international students, established any loan relationship with any international student, or whether any other violation of related ordinances has occurred, and when necessary, it may check details with international students who are applying for admission.

When a university or tertiary college handles matters related to the admission of international students itself or it commissions an external institution, legal person, group, or individual to do so, it is not permitted to provide any information that is inconsistent with its admission regulations, admission guidelines, or any related regulations.

Article 7

International students applying for admission to a university or tertiary college shall submit the following documents and apply directly to the university or college during its designated application period, and applicants who pass the review or screening process will be issued an admission notice:

(1) Academic credentials from the Mainland Area shall be handled in accordance with the provisions of the Regulations Regarding the Assessment and Recognition of Academic Credentials for Mainland Area.

B. Academic records from overseas other than those referred to the preceding two items shall be handled in accordance with the provisions of the Regulations Regarding the Assessment and Recognition of Foreign Academic Records by Institutions of Higher Education. However, academic records issued by a campus or branch that a foreign educational institution has established in the Mainland Area by a foreign educational institution shall be notarized by a notary public there and authenticated by an agency established or designated by the Executive Yuan, or by a private organization commissioned by the Executive Yuan.

3. Proof of the applicant's having sufficient funds to live on while studying in Taiwan, or proof of having a full scholarship or grant provided by a government, university, college, or private organization;

4. Other documents required by the educational institution being applied to.

When an educational institution reviews an international student's admission application, if any of the documents specified in Subparagraph 2 and Subparagraph 4 of the preceding paragraph have not been authenticated by an overseas mission, or by an agency established or designated by the Executive Yuan, or by a private organization commissioned by the Executive Yuan, and the educational institution has any doubts about them, it may request authentication by an overseas agency. If documents that have already been authenticated raise any doubts, the educational institution may request assistance to investigate the matter.

The admission notice referred to in Paragraph 1 shall set out in detail in both Chinese and English the name of the international student, the name of their program of study, the degree

level, the language of instruction, the academic year of enrollment, the date the semester begins, the tuition and miscellaneous fee collection and refund criteria, any scholarship or grant awarded to the student, and any other pertinent information that international students must be notified of, and verify that international students studying in Taiwan understand their associated rights and obligations. A university or tertiary college institution may provide versions of these details in other mother languages of its international students.

Article 7-1

An international student who submits any certificate or document as part of their application for admission to an educational institution that is found to be forged, fabricated, or that has been altered in some way shall have their enrollment eligibility revoked. If the student has already registered and begun classes, their registration as a current student shall be cancelled and they will not be awarded any certification whatsoever regarding their related academic undertakings. If any such circumstances are first discovered after a student has already graduated, the educational institution shall revoke the former student's eligibility to graduate and shall require any degree already awarded to be returned and shall rescind it.

Article 8

An international student who has completed a bachelor's degree or a higher degree in Taiwan and is applying to be admitted to do a master's degree program or a higher degree may submit copies of their graduation certificate from the university or tertiary college in Taiwan and transcripts for each year of their studies and apply in accordance with the provisions of Article 7 and is, without having to submit the overseas academic records referred to in the provisions of Article 7, Paragraph 1, Subparagraph 2.

An international student who meets the criteria set out in Article 2, Paragraph 1, and who has completed an associate degree program or a program below that level in Taiwan, may submit copies of their graduation certificate and transcripts for each year and apply for admission to a bachelor's degree program or a lower level program in accordance with the provisions of Articles 7, 18, and 20, without having to submit the overseas academic records referred to in the provisions of Article 7, Paragraph 1, Subparagraph 2; Article 18, Paragraph 1, Subparagraph 2; and Article 20, Paragraph 1, Subparagraph 3.

If it is already more than one-third of the way into the first semester, the international student shall register for the second semester or the next academic year. However, this restriction does not apply if the competent authority has some provision that overrides it.

Article 12

An international student who with Ministry of Education approval is undertaking an internship after graduating from a university in Taiwan may have their international student status extended for up to one year after their graduation.

An international student who after coming to Taiwan to study has been permitted to undertake initial household registration, resident registration, naturalization, or restoration of R.O.C. nationality procedures during the course of their studies in Taiwan will forfeit their international student status and shall be dismissed by their educational institution. However, this does not apply to a person in any of the following circumstances:

However, an international student who has been dismissed by the educational institution that admitted that student as a result of unsatisfactory conduct or of a conviction in criminal case proceedings is not permitted to transfer to another university or tertiary college.

Article 13

A university or tertiary college may sign an education cooperation agreement with a foreign educational institution and recruit and admit international exchange students, provided that this does not affect normal teaching. A university or tertiary college may also apply, *mutatis mutandis*, its own international student admission regulations to accept suitable international students as non-degree students.

A senior secondary school, junior high school, or elementary school which has obtained approval from its competent authority may recruit international students for short-term periods of study of one year or less in Taiwan.
